

COVID-19 GUIDE

We missed you last summer! We are eagerly awaiting the return of camp this summer! Our hope for this guide is to help you in preparing to send your child to camp at Crossings. You'll learn what precautions we are committed to take, as well as our expectations for you, the group leader. Prevention is our preferred strategy for COVID-19, rather than reacting to it. Working together is what will allow us to live out our mission of creating experiences to proclaim the Gospel. The reality is that camp will look different, and we are confident that it will still be a great experience. The things that make us Crossings will still be in place. We remain committed to providing the camp experience you have come to expect from us. However, you may be wondering what camp will look like.

- Participants will be required to wear face coverings.
- We are prepared to separate all camp participants into tribes.
- Tribes are cohorts of participants, including students and chaperones. These tribes will be around 50 participants per tribe.
- Your tribe will be broken down into three to four gender-specific small groups.
- Your small groups and tribes will sit together during mealtimes and all large group gatherings.
- Your tribe will participate in Bible study, recreation, and POIs together.
- Temperature and symptoms will be checked on a daily basis.

See the outline below for guidelines we are implementing. This plan is subject to change as we receive more guidance from local authorities and medical professionals. We will update it as needed prior to camp. Where not specified in this packet, our policy is to follow CDC and/or state/local/location guidelines for COVID-19 safety and specifically for safety in camp settings.

Section 1: Participant Responsibilities for COVID-19 Prevention

Section 2: COVID-19 Response

Section 3: Cleaning and Safety Procedures

Section 4: FAQs

Section 1:

Participant Responsibilities for COVID-19 Prevention

BEFORE CAMP

1. Parents will be required to sign a Pre-Camp Screening Checklist within 24 hours prior to leaving for camp. If an answer to any question on the Checklist is "yes," the participant must stay home.
2. Refer to the packing list for hygiene-related items needed at camp. Purchase and pack these items: hand sanitizer and face coverings.

DURING CAMP

PARTICIPANT RESPONSIBILITIES

1. Notify Group Leader and do not participate in activities if any participant has any of the following symptoms:

- Fever (of 100.4 or greater) or chills
- New cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

2. Face coverings will be required for all participants and staff. CDC-approved face coverings must be properly worn at all times while indoors (except in private spaces like personal rooms). We recommend participants bring at least two masks

Section 1: *continued*

3. Practice social distancing and limit touch and direct contact with other participants.
4. Wash hands thoroughly throughout each day of camp and use hand sanitizer when hand washing is not available and when asked by staff.
5. Do not share food or drink.
6. All participants are expected to comply with all COVID-19 guidelines designed to reduce the spread of COVID-19 infection and promote the health and safety of those attending camp.

GROUP LEADER RESPONSIBILITIES

1. Train adult leaders attending camp with your group on the health and safety protocols outlined in this document.
2. Do a temperature check and ask screening questions on all of your participants before breakfast each day of camp. Groups will be provided thermometers for daily checks.
3. Make sure all of your participants are following health protocols, including handwashing, using hand sanitizer, social distancing, and wearing a face covering.
4. If participants develop COVID-19 symptoms listed below, report to camp leadership immediately.
5. Take care of any quarantined participants (meal delivery, parent communication, medical treatment, and travel plans).
6. Group excursions away from camp are strongly discouraged to limit exposure. Please keep supply runs to a minimum to reduce outside exposure.
7. For health precautions, outside visitors are not allowed.
8. Immediately report to Crossings leadership any COVID-19 positive participants brought to your attention up to 48 hours after leaving camp.
9. Any intentional, significant, pervasive, or repeated violations of COVID-19 guidelines, including requirements related to face coverings and physical distancing, will be addressed individually and may result in the participant(s) or the group being sent home.

Section 1: *continued*

CROSSINGS CAMPS RESPONSIBILITIES

1. If we are made aware of a participant who tests positive at camp or after returning home, we will notify Group Leaders of the participants we suspect were exposed. We will not share church names or specific participant names when making such notifications.
2. We will provide a room/place for quarantined participants until plans to return home are made or as participants wait to be picked up as soon as possible.
3. Staff will follow the same protocols and COVID-19 response for participants and will support your group in any way possible to adhere to the guidelines.
4. If you have paid your final balance and an individual participant does not pass the health screening prior to camp because of a positive COVID-19 test or exposure, then all monies for that participant will be refunded to the church, less a \$20 fee. We will determine partial refunds if participants cannot complete the week of camp on a case-by-case basis.

Section 2:

COVID-19 Response

1. If any participant has symptom(s) of COVID-19 listed below, immediately remove him or her from camp activities. Camp leadership will work with you to provide an isolation area.

- Fever (of 100.4 or greater) or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

2. Work with camp leadership to identify other participants who were exposed to symptomatic participants. Exposure is defined as being within 6 feet for more than 15 minutes or more over a 24-hour period. Tracking exposure begins at 48 hours prior to the sign of their first symptom. Begin to monitor these potentially exposed participants more closely. Camp leadership will notify other church leaders if multiple groups are involved.

3. Contact parents and consider the need for medical attention including a rapid test.

4. If a rapid test is performed and negative, the participants may be allowed to return to camp activities, if not contagious with another illness (strep, flu, etc.).

5. If the participant is not willing to get a negative rapid test, the participant must return home as quickly as possible and within three hours.

Section 2: continued

COVID-19 Response

6. An exposed participant(s) will be immediately removed from camp activities if the symptomatic participant's rapid test comes back positive. The Group Leader must contact parents and make plans to get the exposed participant(s) home as quickly as possible.

7. The below are exceptions for not needing to quarantine after exposure:

VACCINATIONS:

- You are fully vaccinated (i.e., ≥ 2 weeks following receipt of the second dose in a 2-dose series or ≥ 2 weeks following receipt of one dose of a single-dose vaccine).

PAST RECOVERED CASE OF COVID-19:

- People who have tested positive for COVID-19 within the past 3 months and recovered do not have to quarantine or get tested again as long as they do not develop new symptoms.

Section 3:

Cleaning and Safety Procedures

WORSHIP CENTER:

1. Tribes are to sit together during large group sessions and during meal times. We will utilize assigned seating with tribes socially distanced (all tribes will be six feet at a minimum from all participants in other tribes). A seating rotation will be in place where groups can see all parts of the room during camp.
2. Before each cycle of camp, and once per day, the worship center will be disinfected.
3. Hand sanitizer will be available at entrances.

DINING HALL:

1. Participants must wash or sanitize their hands before entering the dining hall. Hand sanitizing stations will be available.
2. To limit capacity to less than 60%, mealtimes will run on a rotation based on tribe assignments.
3. Participants must wear a face mask to get their food.
4. Gloves will be available if desired.
5. All serving utensils in the buffet line will be changed after each tribe receives their food.
6. Participants will sit at designated tables with their small group and tribe.

RECREATION:

1. Steps have been taken to limit contact and increase distancing, as much as possible.
2. Recreation will be done outside for as many activities as possible.
3. Hand sanitizer will be available.

LODGING:

1. Tribes will room together. We recommend sleeping head to foot amongst those in each room.
2. Staff will be cleaning and sanitizing rooms and bathrooms between camp sessions.
3. We will have reduced lodging capacities in place at each property.

Section 4: FAQs and Pro Tips

IS MY PARTICIPANT REQUIRED TO BE TESTED TO ATTEND CAMP THIS SUMMER?

No. Participants must complete and pass a Pre-Camp Screening Checklist form the day they leave for camp. This form must be signed by parents, then collected and turned in by the Group Leader at check-in.

WILL PARTICIPANTS AND STAFF BE REQUIRED TO WEAR FACE COVERINGS DURING CAMP?

Yes. Face coverings will be required for all attendees and staff. CDC-approved face coverings must be properly worn at all times while indoors except in private spaces (personal rooms). Camp staff will not provide face coverings but will have them available for purchase on-site.

WHAT ARE YOUR PROCEDURES FOR STAFFERS?

Staffers will follow the same guidelines asked of participants and leaders. They will help with COVID-19 prevention efforts in all areas of the camp and reinforce safety guidelines. Our hope is that the majority of our staff will be vaccinated prior to working at camp.

WHAT IF A PARTICIPANT IN MY GROUP TESTS POSITIVE WHILE AT CAMP, WILL MY GROUP NEED TO QUARANTINE?

If a participant tests positive for COVID-19, the participant's parent or guardian should pick up, or have arranged to have picked up, the participant within 3 hours. When an individual tests positive for COVID-19, we will notify the group leaders of all participants in the tribe. Our staff, along with the group leaders and their adult chaperones, will help determine which other students have had close contact with the individual and must be quarantined. The participants who had close contact with the individual who tested positive will need to also be picked up and leave camp within 3 hours in order to quarantine.

Section 4: continued

Campers returning from camp should consider minimizing in-person contact with any person 65 years of age or older, especially those with pre-existing health conditions, for a period of fourteen days. This includes maintaining social distancing of at least 6 feet of separation from those individuals, wearing a face-covering or mask, and avoiding sharing utensils or other common objects with those individuals.

WHAT ABOUT VISITORS TO CAMP?

No visitors are allowed on campus this summer.

WHAT ADDITIONAL ITEMS SHOULD I ENCOURAGE THE GROUP TO PACK TO PROMOTE HEALTH AND SAFETY AT CAMP?

Every participant needs to bring multiple face coverings (consider bringing two), hand sanitizer, and hand soap for their bathroom. Some may choose to also bring additional cleaning supplies (wipes, disinfectant spray) to wipe down their rooms during the session.

WHY ARE FACE COVERINGS REQUIRED?

The Kentucky state guidelines currently require that all businesses must enforce face coverings.

I WASN'T AROUND A COVID-POSITIVE PERSON, BUT I WAS AROUND SOMEONE WHO WAS A "CLOSE CONTACT" TO A POSITIVE CASE. SINCE I AM A SECONDARY EXPOSURE, DO I HAVE TO QUARANTINE TOO?

No. Only participants who were in close contact (within 6 feet for more than 15 minutes or more over a 24-hour period) with a confirmed COVID-19 positive individual will be required to quarantine. We do not need to quarantine a participant with "secondary exposure".

Section 4: continued

WHAT WILL CAPACITY LOOK LIKE?

Depending on changes to CDC, state, and local guidelines, we are currently planning to operate at a limited capacity in our dining hall and worship center and the entire property. We will follow CDC guidelines in determining close contact, which the CDC prescribes as 15-minutes of contact within 6-feet within 24 hours. This contact rule applies whether minutes are consecutive or non-consecutive, masked/unmasked, or indoors/outdoors.

WHAT WILL CLEANING LOOK LIKE?

High traffic areas such as restrooms and indoor gathering areas will be cleaned and sanitized multiple times per day. Cabins will be cleaned and disinfected before campers arrive. Dining facilities will be sanitized before every meal. Hand sanitizer stations will be readily available around the property.

WHAT WILL HOUSING LOOK LIKE?

We will have reduced capacities in our housing units. We are recommending sleeping head to foot in each of our sleeping spaces.
